### DETAILED ACTION

1. No new claims have been added. Claims 1, 9, 12, 17-18, and 26-27 are cancelled. Claims 2-8, 10-11, 13-16, 19-25, and 28-38 are allowed over the prior art of record.

#### *Allowable Subject Matter*

2. The following is an Examiner's statement of reasons for allowance: After further consideration of the prior art of record, it appears that the prior art of record fails to disclose each and every element of the Applicant's invention as claimed. Specifically, the prior art of record fails to teach and/or suggest "determining a first set of user-selectable scheduling options for future execution of the first unit of work based on the first cost", "returning the first set of user-selectable scheduling options to a user interface for display", "determining a second set of user-selectable scheduling options for future execution of the second unit of work based on the second cost", "wherein the second set of user-selectable scheduling options is different than the first set of user-selectable scheduling options", and "returning the second set of user-selectable scheduling options to a user interface for display, whereby the user interface presents: time criteria selection elements from which a user specifies a time at which execution of the second unit of work will begin; and frequency criteria selection elements from which the user specifies a frequency at which the second unit of work will be executed beginning at the specified time." The preceding limitations, when combined with the rest of the claim limitations recited in claim 1, result in a combination of elements that is both novel and unobvious over the prior art of record.
3. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
